Perfecting the Art of Human Resources

Bringing HR & Payroll Together
in a Unified Technology

By bringing the essential functions of Payroll and HR together, iConnect by iSolved simplifies your people management. All critical functions are in one database. No more exporting, importing or clunky integrations. iConnect doesn't stop there. It easily scales to include time tracking, benefits enrollment, applicant tracking and onboarding if and when you need those as well.

iConnect lives in the cloud, so you can access it anywhere at any time. And, it's designed and built from the ground up, based on customer feedback - so you can get payroll done quickly and accurately. No hassles.

Dashboard
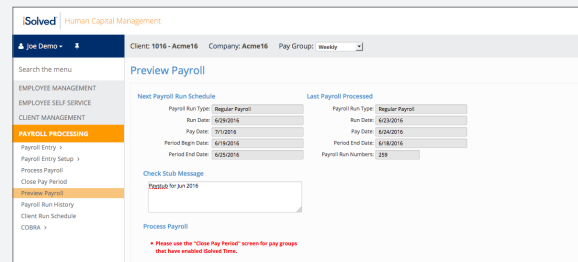

iConnect starts with your Dashboard. Here is the command center that allows you access to all other parts of iConnect.

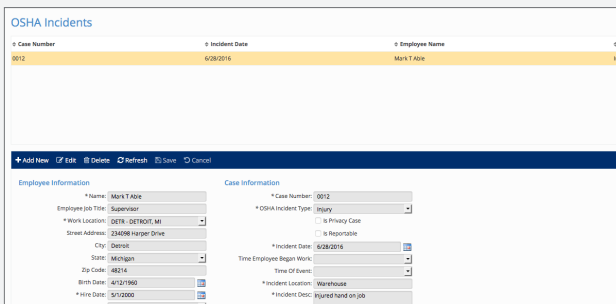

Payroll Preview

iConnect's full payroll preview puts you in control, alerting you to potential errors before you process. Plus, iConnect will calculate taxes with no headaches - even in multi-state situations or where you have complicated, layered local tax rates.

Human Resources

The HR section of iConnect is the central location in managing your employees' documentation, awards, education, disciplinary actions, OSHA incidents and company assets. You can add expiration dates for certifications, performance reviews and more!

With **iConnect** by **iSolved you now have one technology that can do it all. Payroll. HR. Benefits. Time.** All of your mission critical employee data in one place.

Now that's game changing!
